HYBRID EDUCATION

We are a space for inquisitive mindsets!

If you are curious to learn new topics, upgrade your skills, think outside the box, and be creative in your thinking, we are here for you.

We can help you think technically, yet be clear and simple in the way you share and communicate your ideas so you can express freely and accurately.

We want to make Education accessible and affordable and help guide you to understand where your passion truly is or which options maybe best suitable for you when it comes to pursuing Education pathways abroad.

We also want to help you with your creative needs and in sharing your story with the world in the way it best suits you and your vision.

Hi!

I'm grateful to you for reading this and spending your time here.

Making complexity simple is what we are trying to do. May it be in the form of a technical complexity, a skill that deems to be hard, or a mental barrier that limits you from touching a topic that may feel out of reach, or expressing yourself creatively. We want to help you understand the gist of a topic so you can see for yourself if you're interested in a particular topic, area, or an industry you want to pursue.

Whether you've just completed school and seeing what your options are, whether you're looking for a career change, or simply trying to understand where your passion lies, we are here to help you.

I believe that we all deserve to live a life we enjoy. We are going to encounter hardships and days that don't seem too bright, but doing something that feels purposeful and excites you and you really love, will definitely help you live a life beyond your imagination.

STUDENT CONSULTING

We can help you understand

- How to identify what you are good at/interested in?
- What pathways are available in the field you're interested in?
- What does it look like to be a professional in your field beyond study?

How to study better?

- Understanding what tools and methods help best for you to study efficiently
- How to improve your focus and retention of memory
- Organizing your mind to unlock your creativity

Preparing for study abroad

- What to expect living away from home and family for the first time?
- How to make new friends and work on your communication skills
- How to prepare for part-time/full time work?
(We can lend a hand with CV's)
- What new mode of work is available with everything going online?

Learning Materials
& Tools**

CREATIVE CONSULTING

Creation is at the core of everything we do. Whether it's innovation in technology, creating art or designs; technical or artistic, creating space as humans for ideas or space for each other. Creation plays a role in expanding our mind, giving life to new ideas and conveying a message and expressing ourselves.

We are eager to help you tell your story, creatively and authentically, may it be your personal story or a brand or company that's purpose driven and have values and a vision that is waiting to be shared. If you are honest, sincere, and care about sustainability, let us help you!

We can help you with..

- Social Media
- Brochure Design
- Logo Design
- Presentations & Reports Design
- Banner Design
- Event Coverage
(Videography & Editing, Photography,
Lighting (Stage/LED Walls))

MARKETING STRATEGY PLANNING

How to tap into what you truly want to share with your customers

- How to present it in a way that you are able to tap into the audience you are targeting and add your own personal touch
- What makes you unique in terms of the product, style, communication, & how to consistently showcase your signature
- How to understand what modes in terms of gaining visibility, would help you in your particular business?

Is it social media/ blog/ videos/ physical events/ cold calls, networking that gives you the most visibility?
- Brain storm ideas together so we can make a plan for you to execute with us and your team
